Denni O #27 - Monster Dildo Olympix III

[Call for Pricing](#)

Denni O is the mistress of ceremonies in her top hat and tails. With the competition really stiff this year, Denni brought in a crew of 6 judges. The judges ask intimate and personal questions, like when did they lose their virginity, and when did they realize they were sluts. After the personal interviews, the girls begin with the light heavyweight division each performing on a huge dildo that has been chosen for each of them to impale themselves on. This toy is huge and all the girls are eager. When that round is over the girls move to the heavyweight competition sitting on a dildo as fat as your leg. All the girls are quite impressive and no one is running away with the competition. The slut suit competition lets each girl make her own slutty outfit. After showing off their nasty finery, the girls enter the freestyle impromptu squirting and lots of real orgasms. When it comes to the final judging, the girls do their best to influence the judges with Alysha giving head to the judges one at a time. The judging was close and you will have to see the video to see how the actual voting went, but the new queen of the monster dildos is regally crowned!
