[Call for Pricing](#)

Filmed entirely on location, Disciplined Down On The Farm's setting provides many real reasons for four naughty girls to get spanked including improper animal care, refusing to feed the animals and sleeping on the job. There's a real chase scene and an actual hay fight before everyone of these gorgeous gals gets her tight little white ass spanked the way it should be! And don't miss the bonus feature, Spanked and Shaved... after refusing her injection a punishment is required. Watch as one nurse shaves the poor girl before taking a thick paddle to her dairy-air!
